CAREER SUMMARY

Experienced PHP Laravel Developer with over 4 years of expertise in building scalable web applications, including HMIS and POS systems. Proficient in Laravel, Vue.js, MySQL, and RESTful APIs, with solid skills in Ubuntu server management, Docker, and GitHub CI/CD. Known for writing clean, secure code and deploying efficient backend systems. Strong problem-solving skills and a collaborative mindset in team-based development environments.

PROFESSIONAL EXPERIENCE

Vision Eye Hospital Pvt. Ltd

Executive IT Officer (Software)

August 2020 - Continue

As a software developer at Vision Eye Hospital, I am committed to improving operational efficiency by developing and maintaining important systems. My responsibilities include developing and optimizing ERP solutions, web-based healthcare management information systems, and website creation. I excel in problem-solving in Ubuntu and Nginx server systems to ensure seamless functionality and contribute to the constant improvement of technology-driven procedures within the hospital.

Project Title: Health Management Information System (HMIS)

Built a robust hospital management platform covering patient onboarding, appointment scheduling, billing (general/surgical), e-prescriptions, cabin allocation, pathology lab management, pathology report generation, and inventory management. Delivered a responsive UI with Vue.js/Vuetify and a secure, modular backend using Laravel and CodeIgniter.

Technologies: Vue.js, Vuetify, JavaScript, PHP (Laravel & CodeIgniter), MySQL

Deployed At:

- Vision Eye Hospital Pvt. Ltd.
- Dristi Eye Hospital (Banasree, Kushtia, Satkhira, Mohammadpur)
- Additional hospitals under deployment

Project Title: Multi-Outlet POS Management System

Designed and implemented a centralized POS system for managing sales, services, and inventory across various hospital outlets, including pharmacy, optical stores, pathology labs, and in-house stores. Features include real-time product sales, service billing, supply tracking, and stock management.

Deployed at **Vision Eye Hospital Pvt. Ltd.** and **Dristi Eye Hospital branches in Banasree, Kushtia, Satkhira, and Mohammadpur**, with further deployments in progress.

Technologies: Vue.js, Vuetify, JavaScript, PHP (Laravel & CodeIgniter), MySQL

Project Title: Web Development Projects (In-House & Client-Based)

Designed and developed multiple responsive, user-friendly websites for healthcare, e-commerce, and non-profit sectors. Projects included full-stack development, CMS integration, and SEO optimization, tailored to each organization's needs.

Notable Projects:

- www.visioneybd.org – Hospital website for Vision Eye Hospital
- www.dristieyehospital.com – Eye care hospital website
- www.chasmaworld.com – E-commerce website for eyewear (ongoing)
- www.visionaidfoundation.org – Non-profit organization site
- www.bgsglaucoma.com – Non-profit organization site
- Additional internal tools and business websites are under various stages of development

Technologies: HTML, CSS, JavaScript, Vue.js, PHP (Laravel & CodeIgniter), MySQL, Bootstrap, WordPress

Server & DevOps Experience

Hands-on experience managing Linux-based server infrastructures, with a focus on Ubuntu Server for hosting PHP and JavaScript-based web applications. Skilled in setting up and maintaining physical servers as well as cloud-hosted environments.

- **Ubuntu Server Administration:** Proficient in setting up, securing, and maintaining Ubuntu servers, including user access control, SSH configuration, system updates, and service management.
- **Web Server Configuration (Nginx):** Experience configuring Nginx as a reverse proxy and web server for Laravel and Vue.js applications. Includes SSL/TLS certificate setup (Let's Encrypt), domain configuration, caching, and performance tuning.
- **Docker:** Strong understanding of containerized development and deployment using Docker. Able to build and manage custom Docker images and containers for PHP, MySQL, Nginx, and other services. Used Docker Compose to orchestrate multi-container setups in local and staging environments.
- **CI/CD with GitHub Actions:** Implemented CI/CD pipelines using GitHub Actions to automate testing, build, and deployment processes—integrated CI workflows for Laravel and Vue.js projects to push updates securely and efficiently to production environments.
- **Version Control & Deployment:** Proficient in Git and GitHub for source control. Familiar with Git-based deployment workflows, including manual pull/push and automated deployment using webhooks or CI/CD tools.
- **Security & Monitoring:** Basic knowledge of securing Ubuntu servers using UFW firewall, SSH key authentication, and monitoring logs for suspicious activities. Experience with setting up cron jobs, system backups, and monitoring tools.

Tools & Technologies:

Ubuntu Server, Nginx, Docker, Docker Compose, Git, GitHub Actions, SSH, Composer, Laravel Forge (if used), MySQL, PHP-FPM

TECHNICAL SKILL

- Frontend: Vue.js, Vuetify, JavaScript, HTML, CSS, Bootstrap
- Backend: PHP, Laravel, CodeIgniter, REST API
- Database: MySQL
- DevOps: Ubuntu Server, Nginx, Docker, Git, GitHub Actions (CI/CD), SSH
- Other Tools: VS Code, Postman, MySQL Workbench, GitHub
- Domains: HMIS, POS Systems, E-commerce

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science & engineering

Computer Science & Engineer

Southeast University

August 2022 - Continue

Diploma in Computer Science

Rajshahi polytechnic Institute

August 2014 - 2018

Creative IT

PHP and Laravel Development

November 2019 - 2020

PERSONAL DETAILS

Father's name: Md. Nurul Islam

Mother's name: Most. Sharifa Begum

Date of birth: 13/10/1998

Nationality: Bangladeshi (by birth)

Permanent Address: Pirganj, Rangpur.

National ID: 1505285278

Religion: Islam

Marital status: Married

Gender: Male

Blood Group : B(+)
